### Trouble getting a book from Amazon to your Kindle:

If you're having trouble getting a library book from Amazon's website onto your Kindle, we recommend redelivering it from your Amazon account. Here are the steps:

1. Go to [Amazon's website](#) and sign into your account.
2. Under the **Account & Lists** drop-down (at the top of the page), select **Content & Devices**.
3. Select **Deliver or Remove from Device** next to your book.
4. To deliver the book: Select the devices to deliver the book to, then select **Make Changes**.  
If you've previously delivered the book, you may need to remove the book from your device first, then redeliver it. To remove and redeliver: Deselect your device, select **Make Changes**, then follow steps 3 and 4 again to redeliver it.

If that doesn't work, we recommend contacting [Amazon support](#).

### Why can't I send a book to Kindle?

If Libby won't let you send a book to Kindle, there could be a few reasons:

- The book may not be available for Kindle. You can check by tapping the book jacket, then scrolling to the "supports" section and looking for "Kindle."
- You may have downloaded the book already in a different format in Libby, in the OverDrive app, or on your library's OverDrive website. If you download another format (like EPUB), you can't send the book to Kindle from Libby unless you borrow it again.
