

Getting Started with Libby

Setup and Borrowing

1. Install the free Libby app from the Apple App store or Google Play store
2. Open Libby and tap **Find My Library**. Search for the **Westchester Library System** and select it.
3. Tap **Sign in With My Card** and input your library card number and pin number (the last four digits of the phone number you have on file).
4. Once you are signed in, you can browse the collections or search for a specific book or author.
5. Once you find an available title, tap **Borrow**. If the title is not available you can **Place Hold**. Libby will notify you when the hold becomes available to borrow.
6. On the next screen, before tapping **Borrow** again, you can adjust the length of time you would like to borrow the item, either 7 or 14 days.
7. After you click **Borrow** again, you will be able to access your item from your **Shelf**. If it is an ebook, you can choose **Read With Kindle** and follow the prompts to download the ebook to your Kindle.
8. Audiobooks play directly from the Libby app.

Shelf

1. From your **Shelf**, you can access your **Loans**, **Holds**, **Timeline** and **Notices**.
2. If you need to change your **Read With** settings, return the item early, or renew the item, you can click **Manage Loan**.
